KEEPING CHILDREN SAFE TRAINING AND VOLUNTEERING In order to volunteer where children are present, including the upcoming Parish Fall Fest, all volunteers must complete the diocesan mandated training for Safe Environments. Sessions are available at various churches. For more information about this check www.fwdioc.org and click on the Safe Environment link. There is an initial training for adults who are new to the school and this is good for three years. In order to volunteer at our school or for the upcoming parish Fall Fest, all volunteers must have this training. If you have any questions about this program or the guidelines, please contact Robin Harris, Faith Formation Director and Safe Environment Coordinator for St. John Parish at 817-284-4811.

SJS Directory will go to print on Monday, August 29, 2011. Emails will be included this year. Please go to RenWeb to update your information. You have the option to block part or all of your contact information. Our goal is to send the directory home next Friday.
