

READING: Deep in the Heart of Texas

This summer the SJS reading teachers are requiring that every student spend at least thirty minutes each day reading. We are also including a grade level reading list for K through Fifth Grade. Remember this is suggested not required reading. You are also encouraged to visit your local libraries and participate in the summer programs offered at each location.

Kindergarten students can listen to stories while First and Second Graders can listen to stories, read with someone, or read alone. Older students also benefit from reading with someone but should be encouraged to read independently for thirty minutes each day.

Below is a basic log for recording daily reading. Please use the following codes:

T = read together W = read with someone I = read independently

You do not have to include book titles but it is recommended that students from third grade through fifth grade include starting and ending page numbers.

June	1	2	3	4	5	6
