Dear Parent/Guardian of an incoming 7th grader for the 2010-2011 school year,

Texas Department of State Health Services has revised the immunization requirements for entry into 7th grade. The following are the changes that are being implemented:

7th grade additional requirements:

- Booster dose of tetanus/diphtheria/pertussis containing vaccine for entry into 7th grade, if at least 5 years has passed since the last dose of a tetanus- containing vaccine. (or when 5 years from last dose has passed)
- Meningococcal vaccine – one dose for entry into 7th grade
- Varicella vaccine – two doses of varicella vaccine received on or after the 1st birthday for entry into 7th grade

After reviewing your child's immunization record, we have noted on the Health Checklist the immunization (s) that will be required for your child to attend the 1st day of school, 2010-2011.

It is our recommendation that these immunizations are obtained as soon as possible and a copy of the physician validated immunization record is turned into the school office/clinic for proper documentation.

The immunization changes are statewide, and we anticipate immunization clinics to be quite busy.

Thank you for your prompt attention.

Sincerely,

Barbara Timmermann, RN
School Nurse
